

STRANGE DISAPPEARANCE When a shop assistant disappears from the strip mall where she works it triggers a major crime investigation. But there are no leads and the strange case remains unsolved. Then a friend takes over the missing girl's job and begins to unravel the mystery, thereby putting her own life at risk. A grim sense of foreboding permeates the story as threateningly as its landscape - a dark mile of derelict buildings where vagrants live.

REVIEW FROM SINGLE TITLES Strange Disappearance is a nifty little mystery with an underlying romance. I had no idea who had caused Hattie's untimely disappearance until the reveal. **REVIEW FROM NIGHT OWL** Strange Disappearance is a strong mystery with a dash of romance. The solution remains a surprise until the end, or during Vanessa's little encounters, that sent shudders through me. I love the atmosphere when she saw the mist, and heard the wailing foghorns of the harbor. This book keeps the reader on their toes. Karen

Lewis carries the reader into an ominous story that I found powerful, sinister, and at times a bit scary. The addition of secondary characters blends well making this an eerie story that at times sends shivers down the spine. **REVIEW FROM WHIPPED CREAM** If you like to spend a few hours reading a creepy mystery, Goth is your book. It moves at a good pace and Lewis

does a first rate job of laying and adding atmospheric effects like rain, fog and a run-down part of town full of color characters. **JUMBO JET VANISHES** When a Jumbo jet suddenly disappears while on a routine flight, it leaves the fate of hundreds of passengers in limbo. There is no shortage of theories about what happened. Margo's daughter was on the doomed flight, and as she scrambles to decipher truth from lies, what she uncovers is far worse than she deemed possible. **MISSING PERSON** Phaedra's little sister is missing. Desperately worried, she travels to Vancouver to find her. Curtis is the detective assigned to the case, and the attraction is instant. Guilt stalks her. She shouldn't be feeling this way, while her sister is God knows where www.karenlewis.net
