

In THE CALIFORNIA-AMERICAN COOKBOOK, the authors argue persuasively that California, the last continental frontier, the place where all sorts of Americans finally settled, is the melting pots melting pot. Whether they were immigrants from other lands or Americans from other parts of the country, the people who came to California brought along traditions connected to family and place, among them the food they knew and that daily rituals of the shared table. Those traditions were restyled, even reinvented, in California. Every regional and ethnic style possible is represented in California, a state that also happens to be the most extravagantly endowed with wonderful things to eat. Not surprisingly, not one but many new culinary styles have been forged there--from nouvelle Californian to Franco-Japanese and just about anything in between. A band of highly energetic, well-trained, and very creative chefs helped; so did a willing public and a revived interest in American food in general. As a result, the most original and influential trend in American food in the closing years of the 20th century has its roots in the West. All of this and more is reflected in THE CALIFORNIA-AMERICAN COOKBOOK, a big, exciting, marvelously eclectic but surprisingly accessible collection of recipes. Its text offers a casual, delightful history of American foodstuffs and dishes as well. Finally, the authors include Pantry Fancies, a guide to gourmet food products; suggestions for menus and accompanying wines; and a glossary of basic recipes used throughout the book.

Relic Worlds: Short Story Collection 1 (Relic Worlds Short Stories), Roving With Lalah: More Slices of Everyday Jamaican Life, Corporate Creativity: How Innovation & Improvement Actually Happen, Hostage Bride, Sarah Conley: A Novel, Memoirs of a Lifetime, Gender and National Identity: Women and Politics in Muslim Societies, Still Life: A Supernatural Romance (Wildside Series Book 4),
