

Throughout their history, posters have been a significant means of mass communication, often with striking visual effect. The National Air and Space Museum holds an impressive collection of 1300+ aviation posters. These posters focus primarily on advertising for aviation-related products and activities. The collection is significant both for its aesthetic value and its unique representation of the cultural, commercial and military history of aviation. A great gift for anyone who loves aviation, history, or vintage art, Vintage Flight Posters 2016 features twelve unique posters, each accompanied by information about the poster and a spacious grid with holidays and moon phases. The calendar includes a 3-year at-a-glance page and is earth friendly, printed with soya-based inks on FSC certified paper.
